REGIONAL SNAPSHOT

Eastern Indiana Regional Planning Commission (EIRPC) Region, Indiana
Table of contents

01 Overview
02 Demography
03 Human capital
04 Labor force
05 Industry and occupation
What is a regional snapshot?
The Eastern Indiana Regional Planning Commission Region is comprised of five Indiana counties. I-70 passes through the central part of the region connecting to Indianapolis to the west and Dayton, OH to the east.

- Fayette
- Randolph
- Rush
- Union
- Wayne
Overview

What is a regional snapshot?

What is the snapshot?
This snapshot is a demographic and economic assessment of the Eastern Indiana Regional Planning Commission (EIRPC) Region in Indiana. Using county-level data, PCRD analyzed a number of indicators to gauge the overall economic performance of the EIRPC Region in comparison to the rest of the state.

What is its purpose?
The snapshot is intended to inform the region’s leaders, organizations and residents of the key attributes of the region’s population and economy. In particular, it takes stock of the region’s important assets and challenges. With such data in hand, regional leaders and organizations are in a better position to invest in the mix of strategies that will spur the growth of the economy and provide a higher quality of life for residents of the region.

What are its focus areas?
PCRD secured and analyzed recent data from both public and private sources to generate the snapshot. In order to build a more comprehensive picture of the region, the report presents information under four key categories.

- Demography
- Human Capital
- Labor Force
- Industry & Occupation

When appropriate or relevant, the report compares information on the region with data on the remainder of the state. By so doing, the region is better able to determine how well it is performing relative to the state on a variety of important metrics.
Demography

Population change

Questions:
• How does the region’s population trend compare to that of the state?

• What may be some of the elements driving the trends in the region? In the state?

• What strengths or challenges might these trends present?

Race

- White: 95.0% (2000), 94.2% (2014)
- Black: 2.8% (2000), 3.0% (2014)
- Asian: 0.4% (2000), 0.6% (2014)
- American Indian & Alaska Native: 0.2% (2000), 0.3% (2014)
- Native Hawaiian & Other Pacific Islander: 0.03% (2000), 0.06% (2014)
- Two or More Races: 1.5% (2000), 1.9% (2014)
- Other: 5.0% (2000), 5.8% (2014)

Ethnicity

Hispanics

- 2000: 1.0%
- 2014: 2.3%

Questions:

- Is the region experiencing an aging of its population? How does this compare to the rest of the state?
- Is there a sizable number of people of prime working age (20-49 years of age) in the region?
- Is the youth population (under 20 years old) growing or declining?
- What are the implications of the region’s age structure for the economic development efforts of the region?

# Income and poverty

## Questions:

- Is the poverty rate for individuals in the county getting better or worse?
- Is poverty for minors in the county lower or higher than the overall poverty rate for all individuals? Why?
- Has real median income (adjusted for inflation) improved or worsened over the 2003 to 2013 time period? What may be reasons for these changes?

human capital

- Educational attainment
- Graduation rates
- Patents
Educational attainment, 2013

Questions:

- What proportion of the adult population in the region has only a high school education?
- How many are college graduates (bachelors degree or higher)?
- How does the educational profile of the region compare to that of the rest of the state?
- What are the implications of the educational profile of the region in terms of the region’s economic opportunities or workforce challenges?

Source: 2009-2013 American Community Survey 5-Year Estimates
Patenting trends are an important indicator of the level of innovation in a region. Commercializing this innovation can lead to long-term growth for regional economies.

Questions:

• How does the region’s patent rate compare to that of the rest of the state?
• How have rates changed over time?
• What might this data suggest for the future of the region?

*Note: Patent origin is determined by the residence of the first-named inventor. Since a number of workers commute into the region, the number of patents produced in the EIRPC Region could be high. However, among residents of the region, patent production is relatively low.
labor force

Labor force

Unemployment rates

Questions:

- How does the region’s unemployment rate compare to the rest of the state and nation?
- How does the region’s unemployment peak and post-2009 recovery compare to the state and nation?
- What might this suggest for the region’s economic future?

Source: LAUS, BLS
Questions:

• How does the region’s average earnings compare to that of the rest of the state?

• What might be some driving factors for the differences?

• Do these represent potential strengths or challenges for the region?

NOTE: Earnings include wages, salaries, supplements and earnings from partnerships and proprietorships

**Questions:**
- How does the industry sector make-up of the region compare to the rest of the state?
- Which industry sectors are growing and declining the most in employment?

Source: EMSI Class of Worker 2014.4 (QCEW, non-QCEW, self-employed and extended proprietors)
How to interpret cluster data results

The graph’s four quadrants tell a different story for each cluster.

**Mature**
Top left (strong but declining)
Contains clusters that are more concentrated in the region but are declining (negative growth). These clusters typically fall into the lower quadrant as job losses cause a decline in concentration.

**Stars**
Top right (strong and advancing)
Contains clusters that are more concentrated in the region and are growing. These clusters are strengths that help a region stand out from the competition. Small, high-growth clusters can be expected to become more dominant over time.

**Transforming**
Bottom left (weak and declining)
Contains clusters that are under-represented in the region (low concentration) and are also losing jobs. Clusters in this region may indicate a gap in the workforce pipeline if local industries anticipate a future need. In general, clusters in this quadrant show a lack of competitiveness.

**Emerging**
Bottom right (weak but advancing)
Contains clusters that are under-represented in the region but are growing, often quickly. If growth trends continue, these clusters will eventually move into the top right quadrant. Clusters in this quadrant are considered emerging strengths for the region.

Industry and occupation

Distribution of clusters in the Region by quadrants
### Industry cluster analysis

#### Mature Clusters
- Glass & Ceramics (4.54; 497)
- Machinery Manufacturing (3.32; 1,401)
- Agribusiness, Food Processing & Tech (2.38; 4,517)

#### Star Clusters
- Primary Metal Manufacturing (4.76; 695)
- Transportation Equipment Mfg. (2.89; 1,624)
- Fabricated Metal Product Mfg. (2.56; 1,336)
- Chemicals & Chemical Based Products (2.47; 1,920)
- Manufacturing Supercluster (2.39; 5,184)
- Forest & Wood Products (2.36; 2,164)
- Advanced Materials (2.27; 4,334)
- Biomed/Biotechnical (Life Science) (1.32; 6,624)
- Transportation & Logistics (1.01; 2,037)
- Education & Knowledge Creation (1.01; 1,504)

#### Star Clusters
- Primary Metal Manufacturing (4.76; 695)
- Transportation Equipment Mfg. (2.89; 1,624)
- Fabricated Metal Product Mfg. (2.56; 1,336)
- Chemicals & Chemical Based Products (2.47; 1,920)
- Manufacturing Supercluster (2.39; 5,184)
- Forest & Wood Products (2.36; 2,164)
- Advanced Materials (2.27; 4,334)
- Biomed/Biotechnical (Life Science) (1.32; 6,624)
- Transportation & Logistics (1.01; 2,037)
- Education & Knowledge Creation (1.01; 1,504)

#### Transforming Clusters
- Mining (0.72; 138)
- Printing & Publishing (0.60; 659)
- Business & Financial Services (0.40; 3,412)
- Defense & Security (0.34; 925)
- Information Technology & Telecom. (0.28; 707)
- Elec. Equip., App. & Component Mfg. (0.25; 35)*
- Computer & Electronic Product Mfg. (0.24; 93)*

#### Emerging Clusters
- Apparel & Textiles (0.90; 423)
- Energy(Fossil & Renewable) (0.59; 2,026)
- Arts, Ent, Rec. & Visitor Industries (0.50; 1,306)

**NOTE:** The first number after each cluster represents its location quotient while the second number represents the number of total jobs (full and part time jobs by place of work) in that cluster in the region in 2014. The clusters are sorted in decreasing order by location quotient.
Industry Clusters: Leakages

Regional requirements, 2013
